

ITCHING PIMPLES ON FACE AND ARMS

Would Turn Into Blotches. Caused Disfigurement. Had to Keep Arms Wrapped Up. Used Cuticura Soap and Ointment. In 2 Months Well.

46 Wight Place, Springfield, Mass.—"My baby had pimples on his face and arms and they would turn into blotches. They caused disfigurement while they lasted and they itched, for he would scratch till he would bleed. When he scratched, wherever he put his hands afterwards on his face or arms, other pimples would appear. Nights he would cry and I had to stay awake with him to warm water and bathe him. I had to keep his arms wrapped up most of the time on account of his clothes. "I used a number of salves and other remedies, but none did any good. Then I read about Cuticura Soap and Ointment and thought I would try them. In one week I could see his skin beginning to clear up and in two months it was all well." (Signed) Mrs. J. Fennell, October 10, 1914.

Interesting Bits.
Russia lies only one longitudinal degree of stretching half way round the earth, and possesses one-sixth of the land area of the planet. Russia's Asiatic possessions are forty times as great as those of Japan, even since the new Asiatic balance that followed the Russo-Japanese war. The variety of Russia's resources make the empire second only to the United States as the greatest food producing country in the world. It leads all nations in mineral wealth and timber supply.

The value of all the gold produced in the United States from 1792 to Jan. 1, 1914, is estimated by the United States geological survey at \$3,543,799,400; the value of silver at \$1,709,517,600.

At least 25 per cent of the larch timber over large areas in eastern Oregon has been killed or weakened by mistletoe and the forest service is taking steps to combat the pest.

Byron and His Diet.
Byron was an exception to the rule that authorship and hearty feeding go together. For the poet had a morbid dread of getting stout, and Trelawny has recorded of him that he was the only human being he had known with self-restraint enough not to grow fat. In the exercise of this self-restraint, he lived on six ounces a day and no drink but tea, fasting on occasions for forty-eight hours. Three years later he tried one thin slice of bread for breakfast and a vegetable dinner, and kept down his hunger in between by chewing tobacco. And though this semi-starvation may have been bad in the long run, a visitor at the time could only observe that no man had brighter eyes or a clearer voice—London Chronicle.

Standard Remedy For Many Homes

Indigestion and constipation are two conditions closely related and the cause of much physical suffering. The tendency to induce one's appetite is general, so that most people suffer at some time or another from rebellion of the overtaxed organs of digestion and elimination. A simple, pleasant, effective remedy that will quickly relieve the congestion of poisons, waste and restore regularity, is the combination of simple laxative herbs with peppermint, sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin. This is a mild, pleasant, laxative-herb and digestant, absolutely free from opiates or narcotics and has been the standard household remedy in countless homes for many years. A free trial bottle can be obtained by writing to Dr. W. B. Caldwell, 452 Washington St., Monticello, Ill.
